WOLF TRACK RENDEZVOUS

Minocqua Winter Park, Minocqua, WI – Saturday, Jan 31

9 A.M., 48/24k Freestyle; 9:30 A.M. 48/24k Classic

Wave start, single/multiple laps depending on distance

<https://minocquawinterpark.org/events/wolf-tracks-rendezvous/>

Forecast/Conditions: Friday night mostly cloudy, with a low around 2F. North wind 3 to 7 mph. Saturday mostly sunny, with race temperature 9-18F. Snow will be dry, machine worked and packed into a firm track. Expect little, if any, glazing to occur.

Glidewax: Apply HP Blue Hot Wax, scrape and brush, sprinkle on Jet Powder Blue, make two passes with iron at 180c, let cool, scrape and brush using the copper brush and polish with a merino wool roller. Then quickly (1 second) spray Jet Liquid Blue tail to tip, spread and polish using a handheld Thermo Cork, and go ski.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2 layers of Nordic GripWax Red, corking smooth between layers. Finish by applying 1-2 layers of Nordic GripWax Blue, corking smooth between layers depending on race distance.

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax or polishing the Jet Powder but before applying Jet Liquid will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
