

# WAX RECOMMENDATION

## DONNER DOUBLE POLE DERBY

Royal Gorge XC Center, Soda Springs, CA – Friday, January 23

6 P.M. 4k, Classic – No Skating

Mass start, night race under the lights

<https://farwestnordic.org/wp-content/uploads/2026/01/FridayNightLights.pdf>

---

**Forecast/Conditions:** Morning low of 25, daytime high of 44, temperature at start 34. Mostly clear and dark with light NE winds. Expect glazed, transformed and slightly dirty snow.

**Glidewax:** Apply HP Red Hot Wax/HP Yellow Hot Wax mixed 1:1, scrape and brush. Go ski. This is a fun race so we are keeping the waxing simple. If you want to add a top coat, use Toko Jet Liquid Yellow. Quickly (about 3 to 4 seconds) spray [Jet Liquid](#) Yellow tail to tip, let sit for 10 minutes, go ski.

**Gripwax:** Roughen base with 150 grit sandpaper, apply Nordic Base Klister Green, heat and smooth. While still warm, apply Nordic Klister Red and Klister Yellow in an alternating chevron pattern, smooth, let cool.

**Structure:** A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

*Created by Ben Grasseschi, Toko Tech Team member since 2003*

Check the [Wax Tips](#) page at [TokoUS.com](https://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
