

# WAX RECOMMENDATION

## WASATCH CITIZENS SERIES #3 SKIATHLON

**Soldier Hollow, Midway, UT – Saturday, Jan 31**

10 A.M., 5k Classic followed by 5k Skate

Wave start, 1-2 laps of each technique depending on age group

<https://utahnordic.org/wcs/>

---

**Forecast/Conditions:** Overnight low of 23, temperature at start around 32, sunny and calm. Expect dry snow early on. Fresh manmade snow, with no new precipitation.

**Glidewax:** Apply HP Red Hot Wax, scrape and brush. Lightly rub on Jet Bloc Red, polish with the Rotary Brush Merino Wool, repeat the Jet Bloc rub/polish for a second coat. Then quickly (2 to 3 seconds) spray Jet Liquid Red tail to tip, spread and polish using a handheld Thermo Cork, and go ski.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2-4 layers of Nordic Base GripWax Green, corking smooth between layers until thicker than normal.

**Structure:** A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax and applying Jet Bloc Red but before applying Jet Liquid will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
