

WAX RECOMMENDATION

GREAT CARIBOU BOG CLASSIC RACE

Great Caribou Bog Trails, Orono, ME – Saturday, Feb 7

10 A.M., 30k/20k/10k, Classic

Mass start, 10k lap

<https://www.pvskiclub.org/nordicrace>

Forecast/Conditions: Overnight low of 7F with possible light snow. Race start temperature around 15. A strong cold front will follow with dropping temperatures and strong winds.

Glidewax: Apply HP Blue, scrape and brush, sprinkle on [Jet Powder](#) Blue, make two passes with iron at 180c, let cool, scrape and brush using the copper brush and polish with a merino wool roller.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2-4 layers of Nordic GripWax Blue, corking smooth between layers.

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax or polishing the Jet Powder will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
