WAX RECOMMENDATION

SPUDATHLON

Alta Nordic Trail, Alta, WY – Saturday, Feb 28
10:15 A.M., 16k/7k/3k. Classic then Skate
Wave start based on distance, 1 lap Classic and 1 lap Skate
https://gtssf.org/event/spudathlon-race/

Forecast/Conditions: Overnight low 23, temperature at start 32, and partly cloudy skies. Expect a firm track with transformed and glazing snow. South facing hills have thin snow and some stubble from the fields is starting to show through.

Glidewax: Apply HP Red Hot Wax, scrape and brush, lightly rub on Jet Bloc Red, polish with the Rotary Brush Merino Wool, repeat the Jet Block rub/polish for a second coat. Then quickly about 2-3 seconds spray Jet Liquid Red tail to tip, spread and polish using a handheld Thermo Cork, and go ski.

Gripwax: Roughen base with 150 grit sandpaper, apply Nordic Base Klister Green, heat and smooth. Then apply Nordic Klister Red, smooth, let cool. Skin skis would also work well. If using skin skis, treat skins with Eco Skin Proof. For best performance, apply Eco Skin Proof the day before the event.

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax or polishing the Jet Bloc but before applying Jet Liquid will best suit these conditions.
