

# WAX RECOMMENDATION

## WASATCH CITIZEN SERIES RACE #4

**Soldier Hollow Nordic Center, Midway, UT – Saturday, Feb 21**

10 A.M. Kids, 10:20 A.M. Adults, 21k, Freestyle, shorter for kids and skiers over 70

Wave starts on a loop course TBD

<https://utahnordic.org/wcs/>

---

**Forecast/Conditions:** Overnight low 7F, temperature at start in the upper 20s. A lot of new snow in days prior to the race will be mixed in with the manmade base. Snow will be glazing during the adult races. Sunny skies with air temperature warming to above freezing during the race.

**Glidewax:** Apply HP Blue Hot Wax, scrape and brush, sprinkle on Jet Powder Blue, make two passes with iron at 180c, let cool, scrape and brush using the copper brush and polish with a merino wool roller. Then quickly (1 second) spray Jet Liquid Blue tail to tip, spread and polish using a handheld Thermo Cork, and go ski.

**Structure:** A fine universal structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax or polishing the Jet Powder but before applying Jet Liquid will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
