

WAX RECOMMENDATION

COLORADO BIATHLON STATE CHAMPS SPRINT

Snow Mountain Ranch, Granby, CO – Saturday, Feb 28

9:30 A.M. Zero, 10:50 A.M. Race, Skate

<https://www.coloradobiathlon.org/schedule.html#logistics>

Forecast/Conditions: Overnight low 22, temperature at start 36, rising into the high 40s. The snow will be spring-like with warm temperatures and rain in the days before. Saturday forecast calls for partly sunny with wind gusts up to 15 mph.

Glidewax: Apply HP Red Hot Wax/HP Yellow Hot Wax mixed 1:1, scrape and brush, sprinkle on [Jet Powder](#) Yellow, make two passes with iron at 180c, let cool, scrape and brush using the copper brush and polish with a merino wool roller. Then quickly (about 3 to 4 seconds) spray [Jet Liquid](#) Yellow tail to tip, let sit for 10 minutes, go ski.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax or polishing the Jet Powder but before applying Jet Liquid will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
