

WAX RECOMMENDATION

COLORADO BIATHLON STATE CHAMPS PURSUIT

Snow Mountain Ranch, Granby, CO – Sunday, March 1

9:30 A.M. Zero, 10:50 A.M. Race, Skate

<https://www.coloradobiathlon.org/schedule.html#logistics>

Forecast/Conditions: Overnight low 30, temperature at start 39, rising as high as 50. The snow be wet and spring-like. Sunday forecast calls for rain with winds up to 10 mph.

Glidewax: Apply HP Red Hot Wax/HP Yellow Hot Wax mixed 1:1, scrape and brush, sprinkle on [Jet Powder](#) Yellow, make two passes with iron at 180c, let cool, scrape and brush using the copper brush and polish with a merino wool roller. Then quickly (about 3 to 4 seconds) spray [Jet Liquid](#) Yellow tail to tip, let sit for 10 minutes, go ski.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax or polishing the Jet Powder but before applying Jet Liquid will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
