

WAX RECOMMENDATION

KACHEMAK NORDIC SKI MARATHON

Lookout Mountain Trails, Homer, AK – Saturday, March 14

9:30 A.M., 42k, Freestyle

Mass start, multiple laps

<https://www.kachemaknordicskiclub.org/events/nordic-ski-marathon>

Forecast/Conditions: Overnight low near 10F, temperature at start approaching 15, rising to near 20 later in the race. Partly sunny with older, transformed snow. The snow be glazed with skiers skiing multiple laps.

Glidewax: Apply HP Red Hot Wax, scrape and brush, sprinkle on [Jet Powder](#) Red, make two passes with iron at 180c, let cool, scrape and brush using the copper brush and polish with a merino wool roller. Then quickly (about 2 to 3 seconds) spray [Jet Liquid](#) Red tail to tip, let sit for 10 minutes, go ski.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2-4 layers of Nordic GripWax Red, corking smooth between layers.

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax or polishing the Jet Powder but before applying Jet Liquid will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
