

WAX RECOMMENDATION

BJORNLOPPET CLASSIC

Bear Valley Adventure Center, Bear Valley, CA –Sunday, March 8

10 A.M., 10/5K, Classic only

Mass start. 5k lap

<https://www.bvadventures.com/events/53rd-bjornloppet>

Forecast/Conditions: Overnight low 34, temperature at start 42, with a high of 56. While strong NE winds will keep it cooler at first, not freezing overnight and a warm day prior you can expect rapid warming, fully transformed glazed and slightly dirty snow on race day.

Glidewax: Apply HP Red Hot Wax/HP Yellow Hot Wax mixed 1:1, scrape and brush. Then quickly (3 to 4 seconds) spray [Jet Liquid](#) Yellow tail to tip, let sit for 10 minutes, and go ski.

Gripwax: Roughen base with 150 grit sandpaper, apply Nordic Base Klister Green, heat and smooth. While still warm, apply Nordic Klister Red and Klister Yellow in an alternating chevron pattern, smooth, let cool.

Structure: A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax but before applying Jet Liquid will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
