

# WAX RECOMMENDATION

## BJORNLOPPET FREESTYLE

Bear Valley Adventure Center, Bear Valley, CA – Saturday, March 7

10:30 A.M., 20k/10k/5k, Freestyle

Mass start, 10k lap for 20k/10k with 5k on its own lap

<https://www.bvadventures.com/events/53rd-bjornloppet>

---

**Forecast/Conditions:** Overnight low 30, temperature at start 39 with a high of 46. Freezing overnight on the mornings leading into the race and strong NE winds will have it skiing cooler at first. Expect rapid warming, fully transformed glazed and slightly dirty snow.

**Glidewax:** Apply HP Red Hot Wax/HP Yellow Hot Wax mixed 1:1, scrape and brush. Then quickly (3 to 4 seconds) spray [Jet Liquid](#) Yellow tail to tip, let sit for 10 minutes, and go ski.

**Gripwax:** N/A

**Structure:** A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax but before applying Jet Liquid will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
