

WAX RECOMMENDATION

SILVER LAKE LOPPET

Solitude Nordic Center, Brighton, UT – Saturday, April 4

10 A.M. 6.5k Individual race, Freestyle; 1 P.M. 3 person x 1.5k Relay, Freestyle

Course TBD due to limited snow and terrain

For more info contact Solitude Nordic: 801-536-5774

Forecast/Conditions: Overnight low 23, temperature at start in the mid-30s. A few inches of new wet snow in days prior to the race will be mixed in with the old dirty base. Snow will be glazing during the races. Sunny skies with air temperature warming into the 40s during the races.

Glidewax: Apply HP Red Hot Wax, scrape and brush. Then quickly (about 2 to 3 seconds) spray [Jet Liquid](#) Yellow tail to tip, let sit for 10 minutes, go ski.

**The same wax tip applies to both individual race in the morning and relay race in afternoon.

Structure: A universal to coarse structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax but before applying Jet Liquid will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
